

**Medicare Diabetes Prevention
Program- # I-008**

Last reviewed: 10/08/25

Application

Application of this Medical Policy applies to:
INTEGRITY for Duals (FIDE), Duals CONNECT (CO-DSNP)
Excluded from Coverage:
RIte Care (MED), Rhody Health Partners (RHP), Rhody Health Expansion (RHE), Children with Special Health Care Needs (CSN), Substitute Care (SUB), Extended Family Planning (EFP), and Commercial (HBE)

Medicare Distinction

For INTEGRITY for Duals (FIDE) and Duals CONNECT (CO-DSNP) members: Neighborhood Health Plan of Rhode Island (Neighborhood) uses guidance from the Centers for Medicare and Medicaid Services (CMS) for coverage determinations, including medical necessity. Coverage determinations are based on applicable National Coverage Determinations (NCDs), Local Coverage Determinations (LCDs), Local Coverage Articles (LCAs), and other Medicare guidelines.

For FIDE Members: In the absence of an applicable or incomplete NCD, LCD, or other Medicare guidelines OR if available Medicare coverage guidance is not met, then Neighborhood will apply coverage guidance from the Rhode Island Executive Office of Health & Human Services (EOHHS), or other widely used treatment guidelines with peer-reviewed scientific evidence, such as InterQual® and/or internal Clinical Medical Policies as a means of secondary coverage through the member's Medicaid benefit.

For CO-DSNP Members: In the absence of an applicable or incomplete NCD, LCD, or other Medicare guidelines, then Neighborhood will apply coverage guidance from other widely used treatment guidelines with peer-reviewed scientific evidence, such as InterQual® and/or internal Clinical Medical Policies.

Description

The Medicare Diabetes Prevention Program (MDPP) provides ongoing health behavior coaching and education to members who are at risk for type II diabetes using a CDC-approved curriculum focused on diet, physical activity, and weight loss. MDPP aims to prevent or delay the onset of type 2 diabetes in the Medicare population; empower high-risk individuals to take action to improve their health; and improve population health.

The MDPP is made up of 2 phases over the course of one year:

- Phase 1 (months 0-6): Weekly 1-hour in-person or distance learning sessions where members receive:
 - Training to make realistic, lasting behavior changes around diet and exercise

**Medicare Diabetes Prevention
Program- # I-008**

Last reviewed: 10/08/25

- Tips for getting more exercise
- Strategies to control your weight
- A specially trained coach to help keep you motivated
- Support from people with similar goals and challenges
- Phase 2 (months 7-12): Monthly 1-hour in-person or distance learning follow-up sessions to help you maintain healthy habits.

MDPP services are provided by CDC approved providers. Providers must have one of the following recognitions to furnish MDPP services:

- MDPP Interim Preliminary Recognition
- MDPP Preliminary Recognition
- CDC Preliminary Recognition
- CDC Full Recognition.

All sessions must be delivered by an eligible MDPP coach and be based on a CDC approved curriculum focused on weight loss and lifestyle wellness, in an effort to prevent or delay type II diabetes.

Coverage Determination

Members must meet **all** of the following criteria:

- ☐ Within 12 months before attending your first core session, you have either a:
 - Hemoglobin A1c test result between 5.7% and 6.4%
 - Fasting plasma glucose of 110-125mg/dL
 - 2-hour plasma glucose of 140-199 mg/dL (oral glucose tolerant test)
- ☐ Have a body mass index (BMI) of 25 or more (BMI of 23 or more if you're Asian).
 - NOTE: The member's weight and height must be measured in-person at the first core session and should be used to calculate BMI.
- ☐ Never been diagnosed with type 1 or type 2 diabetes (with the exception for gestational diabetes) or End-Stage Renal Disease (ESRD).
 - NOTE: If the member develops diabetes while receiving MDPP services, they can continue with the program.
 - NOTE: If the member develops ESRD while receiving MDPP services, they cannot continue with the program.
- ☐ Never participated in the Medicare Diabetes Prevention Program (members are only eligible for MDPP services once-per-lifetime).

Exclusions and Limitations

1. MDPP is noncovered, if the member:
