

## Upcoming Medicaid Pharmacy Benefit Changes

### Neighborhood News – January 2026

Effective **February 1, 2026**, Neighborhood will update its Medicaid Pharmacy Benefit to remove **Prolia/Xgeva** and **Jobbonti/Wyost** from the Medicaid Formulary. Moving forward, we will **exclusively prefer** **Bildyos/Bilprevda**.

**Authorizations for Prolia/Xgeva and Jobbonti/Wyost will terminate as of February 1, 2026.**

Effective **February 1, 2026**, Neighborhood will update its Medicaid Pharmacy Benefit to remove **Dulera** from the Medicaid Formulary. Moving forward, we will **exclusively prefer the products listed below**.

- **Fluticasone-Salmeterol** (AirDuo Respiclick generic, Advair Diskus generic, Advair HFA generic)
- **Wixela Inhub** (fluticasone-salmeterol pow)
- **Fluticasone-Vilanterol 100 & 200 mg** (Breo Ellipta generic)
- **Budesonide-Formoterol** (Symbicort Generic)
- **Breyna** (Symbicort Generic)

### Special Note

- **Dulera** 50 mcg/5 mcg will remain on formulary **without restriction for members under 6 years old**.
- Members who have used Dulera 100 mcg/5 mcg or 200 mcg/5 mcg, and members  $\geq 6$  years old who have used Dulera 50 mcg/5 mcg in the last 6 months, will have access to remain on Dulera through **December 31, 2026**.

These changes do not affect Neighborhood Members with Commercial or Medicare insurance.
