

Provider Spotlight Series

Neighborhood News – April 2026

Great work is happening across our provider community every day, and we want to help highlight it.

In Neighborhood's employee newsletter, we periodically feature providers who are doing interesting, innovative, or impactful work related to the care you provide our members. If you or your team are involved in a project, initiative, or approach, we'd love to hear about it and consider it for a spotlight in our employee newsletter.

This could include:

- Work that improves patient experience or care delivery
- Quality improvement efforts
- Community partnerships or outreach

If you're interested in being featured, please send a brief description of what you're working on to providercomms@nhpri.org.

Thank you for the important and inspiring work you do every day. We look forward to sharing your stories with our team to highlight the critical services you provide.
