

New PDF Search Feature Now Available on the Provider Website

September 30, 2026

Neighborhood Health Plan of Rhode Island (Neighborhood) has added a new PDF search feature to the provider website, making it easier for providers to quickly find information within key resources.

Providers can enter a **code, keyword or topic** to identify relevant PDF documents without having to open and review each document individually.

News and Updates

Recent News for Neighborhood Providers

The new PDF search feature is available at the top of the following provider website pages:

- [Provider Homepage](#)
- [Neighborhood News and Updates](#)
- [Billing Guidelines and Payment Policies](#)

Providers can visit any of the pages above and use the search feature at the top of the page to search across the documents available.

For example, providers looking for information about a specific procedure code can search the code to quickly identify relevant Payment Policies or Clinical Medical Policies rather than reviewing individual documents.

This enhancement is designed to make Neighborhood's provider resources easier to navigate and help practices find the information they need more quickly.
