

Coverage Change for Cubby Beds and Related Supplies

October 26, 2026

Effective **January 1, 2027**, Neighborhood Health Plan of Rhode Island (Neighborhood) will no longer cover Cubby Beds, including associated supplies and replacement parts, across all lines of business.

Alternative enclosed safety bed systems, such as Beds by George and SleepSafe, will be preferred when medically appropriate and subject to prior authorization.

Requests for Cubby Beds and their associated supplies or replacement parts received on or after January 1, 2027, will be denied. Providers seeking coverage for an alternative enclosed safety bed system must submit a new prior authorization for the alternative model.

All prior authorization requests for enclosed safety bed systems should continue to be submitted through Neighborhood's durable medical equipment (DME) vendor, INTEGRA.

Thank you for your continued partnership in caring for our members.
