

Help Your Patients Get Covered in 2027

Neighborhood News - October 2026

If your patients are uninsured, have recently lost coverage, or are struggling to afford their health insurance premiums, they may qualify for **financial assistance** to help lower their monthly costs in the 2027 plan year.

Eligible individuals may benefit from Rhode Island's expanded state subsidy program, which can help make coverage **more affordable than last year**.

Open Enrollment is happening **November 1 through January 31**, so it is the best time for individuals to enroll or renew their current plan. The Neighborhood Sales Team is trained to help people understand their options and to pick the plan that will work best for their family.
