

Prior Authorization Forms

Neighborhood News – October 2026

The Neighborhood Health Plan of Rhode Island's Pharmacy department has all prior authorization forms posted on <https://www.nhpri.org/providers/provider-resources/pharmacy/pharmacy-information-forms-resources/> as a resource for providers, these forms are printable directly from our website for the pharmacy and medical benefit, eForms are also available directly from this website for medical benefit requests, and eForms are also available through the use of cover my meds for the pharmacy benefit.

Using the provider resources Neighborhood provides can reduce call and wait times that may occur when an office is requesting a blank form to be faxed.
