Best Practices for CPT II Coding

The CPT II codes are supplemental tracking codes that provide important information about a person's health and helps to close the gap in care.

Benefits of using CPT II Codes
- ✓ Provides valuable information such as test results and lab values.
- ✓ Reduces the need for chart review and medical record abstraction.
- ✓ Streamlines data collection and attestation process.

CPT II codes provide important information for several measures including, but not limited to:
- Blood Pressure Control
- Care for Older Adults
- Diabetic Eye Exam
- Diabetic Testing
- Prenatal and Postpartum Care

Note: CPT II codes must be used in conjunction with primary billing codes to properly capture the data. The following chart describes current CPT II that are included in the current HEDIS value set.

Quality Measure		CPT II Code Definition	CPT II Codes
Blood Pressure Control	Controlling High Blood Pressure	Blood Pressure Readings	3074F, 3075F, 3077F, 3080F, 3078F, 3079F
	Comprehensive Diabetes Care Blood Pressure Control		
Advance Care Planning		Advance Care Planning discussed and documented advance care plan or surrogate decision maker documented in the medical record	1123F
		Advance Care Planning discussed and documented in the medical record, patient did not wish or was not able to name a surrogate decision maker or provide an advance care plan	1124F
		Advance care plan or similar legal document present in the medical record	1157F
		Advance care planning discussion documented in the medical record	1158F
Care of Older Adults	Functional Status Assessment	Functional status assessed	1170F
	Pain Assessment	Pain severity quantified; pain present, Pain severity quantified; pain not present	1125F, 1126F
	Medication List	Medication list documented in medical record	1159F
	Medication Reconciliation Intervention	Discharge medications reconciled with the current medication list in outpatient medical record	1111F

OF RHODE ISLAND™

	Medication Review	Review of all medications by a prescribing practitioner or clinical pharmacist (such as, prescriptions, OTCs, herbal therapies and supplements) documented in the medical record	1160F
Diabetes Management	Diabetic Retinal Screening Negative In Prior Year	Low risk for retinopathy (no evidence of retinopathy in the prior year)	3072F
	Eye Exam With Evidence of Retinopathy	Dilated retinal eye exam with evidence of retinopathy	2022F, 2024F, 2026F
	Eye Exam Without Evidence of Retinopathy	Dilated retinal eye exam without evidence of retinopathy	2023F, 2025F, 2033F
	HbA1c Test Result or Finding	Most recent hemoglobin A1c (HbA1c) level less than 7.0%	3044F
		Most recent hemoglobin A1c level greater than 9.0%	3046F
		Most recent hemoglobin A1c (HbA1c) level greater than or equal to 7.0% and less than 8.0%	3051F
		Most recent hemoglobin A1c (HbA1c) level greater than or equal to 8.0% and less than or equal to 9.0%	3052F
	LDL-C Test Result or Finding	LDL-C Testing Results	3048F, 3049F, 3050F
Prenatal and Postpartum Care	Postpartum Visits	Postpartum care visit	0503F
	Stand Alone Prenatal Visits	Initial prenatal care visit	0500F
		Prenatal flow sheet documented in medical record by first prenatal visit	0501F
		Subsequent prenatal care visit	0502F
