

Current Forms

Neighborhood News – July 2023

Please remember to use the most current request forms available on our website. Provider request forms are available in the *Forms* section of the [Provider Resources menu](#) on the Neighborhood Health Plan of Rhode Island (Neighborhood) website. The Corrected (Replacement/Voided Claim Request Form is writeable, so it can be typed online, printed and submitted to Neighborhood. Claim Adjustment and Claim Reconsideration requests are only accepted when they are submitted electronically via the eForm on the Neighborhood website. Outdated and improperly submitted forms will be returned to the sender for correction.

The **Claim Form Finder**, located in the *Forms* section of the [Provider Resources menu](#) on the Neighborhood website, can help to determine which form must be completed and submitted to Neighborhood, along with additional information related to the submission of each form.
