

Requests for Out-of-Network Pharmacy Services

Neighborhood News – July 2023

At Neighborhood Health Plan of Rhode Island, we pride ourselves on our broad network of providers. We engage members as well as their providers in evaluating the availability of necessary services within the local delivery system.

When submitting referrals for out-of-network pharmacy services, please direct them to our pharmacy department at 1-844-639-7906. Include the clinical rationale as to why the service(s) need to be rendered by an out-of-network provider.

Please note we undertake careful evaluation of the medical necessity for these types of requests.
